

# Be A Great Neighbor By:

Say hello, offer a welcome gift and share or ask about the local area.

## Introducing Yourself

Get to know your neighbors, their jobs and their schedules. Alert them to parties with plenty of warning and leave a telephone number if they need to reach you.

## Being Mindful Of Others

If you hear of any neighborhood news (events, crime, special garbage pickups, etc.) make sure to pass the information along.

## Sharing Important Information

Keep your pet leashed or on your own property. Make sure to clean up after your pet and control problem barking or whining.

## Controlling Your Pets

Do not block anyone's access or force them to pull out of a very tight spot. Make sure to not shine lights into windows or slam doors late at night.

## Practicing Parking Etiquette

Mow your lawn regularly and keep your flowers, trees, shrubs and bushes trimmed appropriately.

## Keeping Your Yard Clean and Tidy

Only put your trash out on pick-up day and return the trash bin to your home the same day.

## Managing Your Trash

Touchbase with your neighbors regularly and keep them in the loop.

## Communicate

Keep your eye on anyone you don't know that is acting suspiciously. When in doubt, call the police.

## Being Aware

Help shovel walkways and rake leaves. When someone new moves in, welcome them to the neighborhood.

## Being Friendly and Helpful
