Be A Great Neighbor By:

Introducing Yourself
Say hello, offer a welcome gift and share or ask about the local area.

Being Mindful Of Others
Get to know your neighbors, their jobs and their schedules. Alert them to parties with plenty of warning and leave a telephone number if they need to reach you.

Sharing Important Information
If you hear of any neighborhood news (events, crime, special garbage pickups, etc.) make sure to pass the information along.

Controlling Your Pets
Keep your pet leashed or on your own property. Make sure to clean up after your pet and control problem barking or whining.

Practicing Parking Etiquette
Do not block anyone’s access or force them to pull out of a very tight spot. Make sure to not shine lights into windows or slam doors late at night.

Keeping Your Yard Clean and Tidy
Mow your lawn regularly and keep your flowers, trees, shrubs and bushes trimmed appropriately.

Managing Your Trash
Only put your trash out on pick-up day and return the trash bin to your home the same day.

Communicate
Touchbase with your neighbors regularly and keep them in the loop.

Being Aware
Keep your eye on anyone you don’t know that is acting suspiciously. When in doubt, call the police.

Being Friendly and Helpful
Help shovel walkways and rake leaves. When someone new moves in, welcome them to the neighborhood.
